

# MalFreeMaps Update Procedure

If you go to the following website: <http://www.malfreemaps.com>  
Then click on Free Public Downloads.

Select Free Malaysia & Singapore GPS Map: MFM-Garmin 101018.

The numbers at the end represent the date the map was updated. For example: 101018 = 18<sup>th</sup> of October 2010.

Choose the latest map and click on the link.

When the setup is run it will ask you for your preferred language. Select one and press Ok.

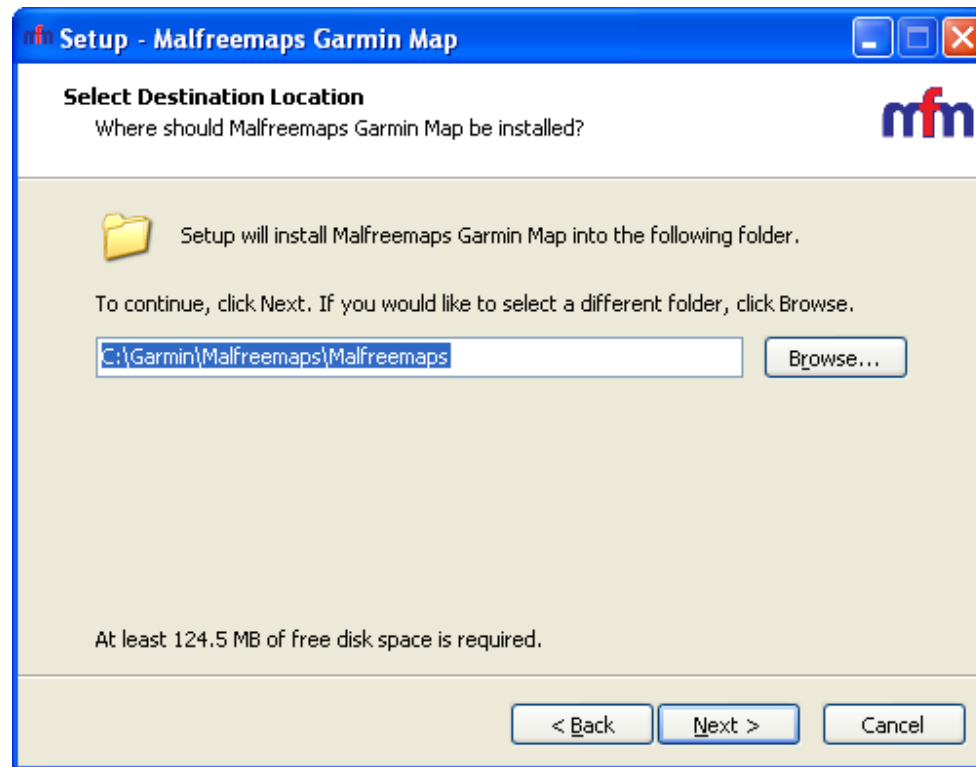

Press the Next button on the screen.

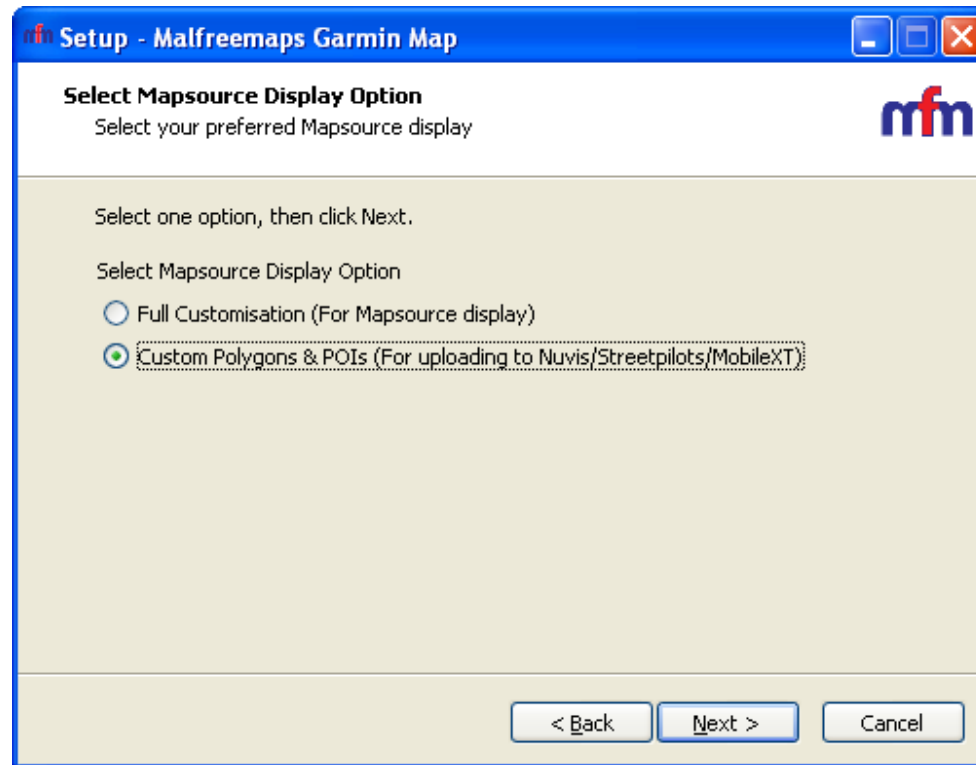

Read through the License Agreement and then click on “I accept the agreement” and press the Next button.

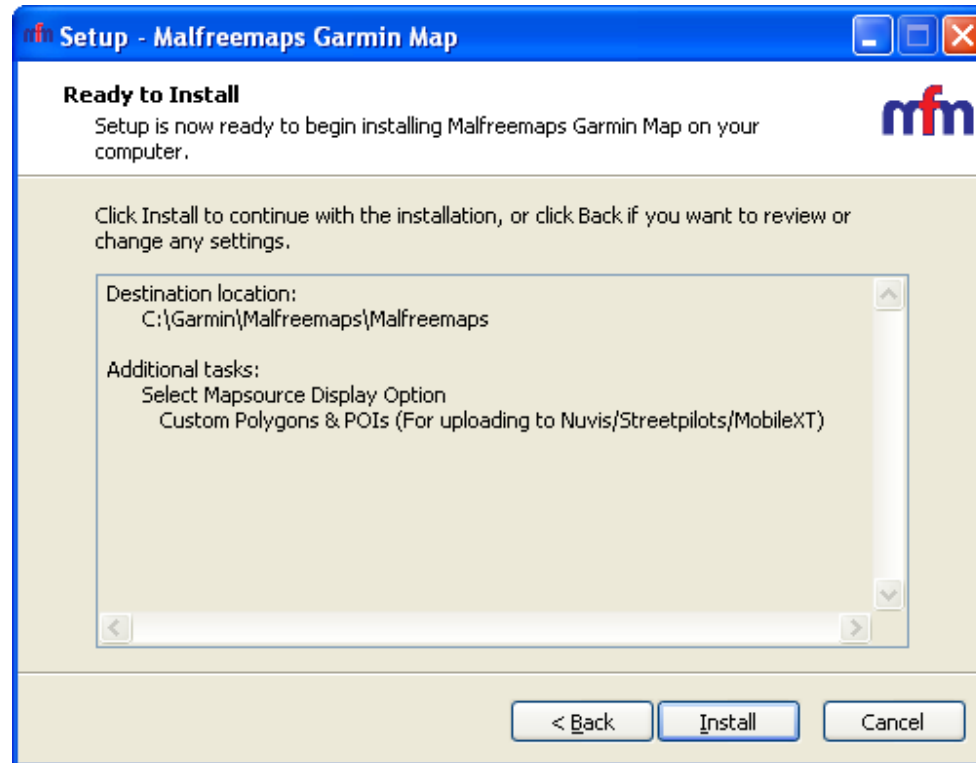

Then select the folder to install Malfreemaps in and click the Next button. If unsure just press Next.

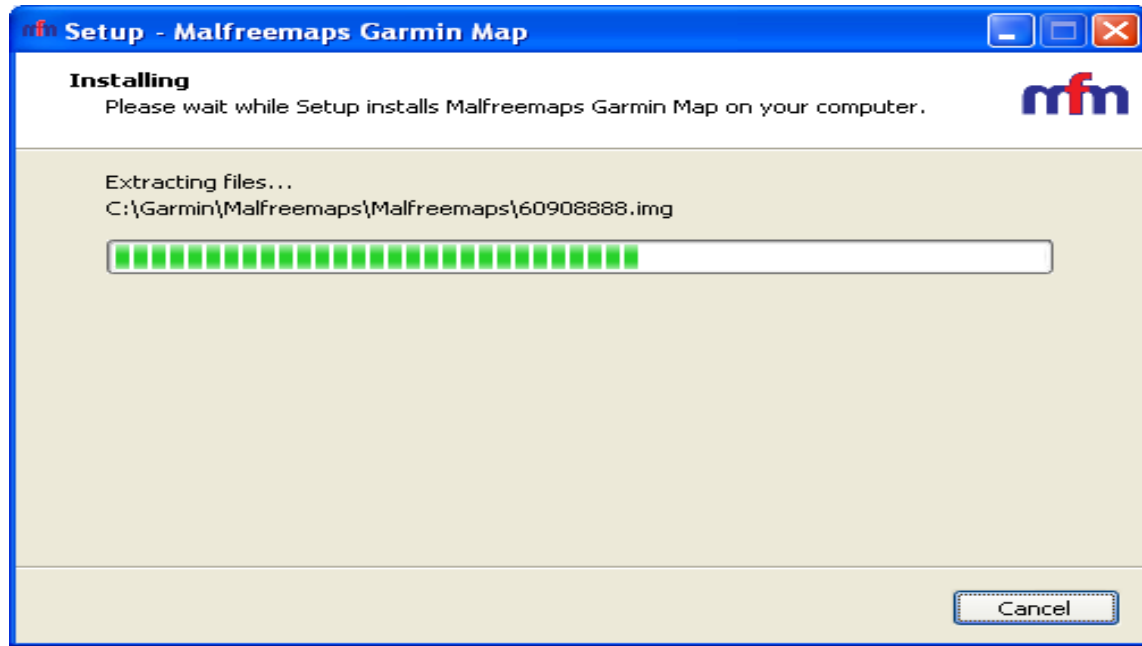

Select “Custom Polygons & POIs (For uploading to Nuvis/Streetpilots/Mobile XT)” and press the Next button.

Click on the Install button to start the installation process.

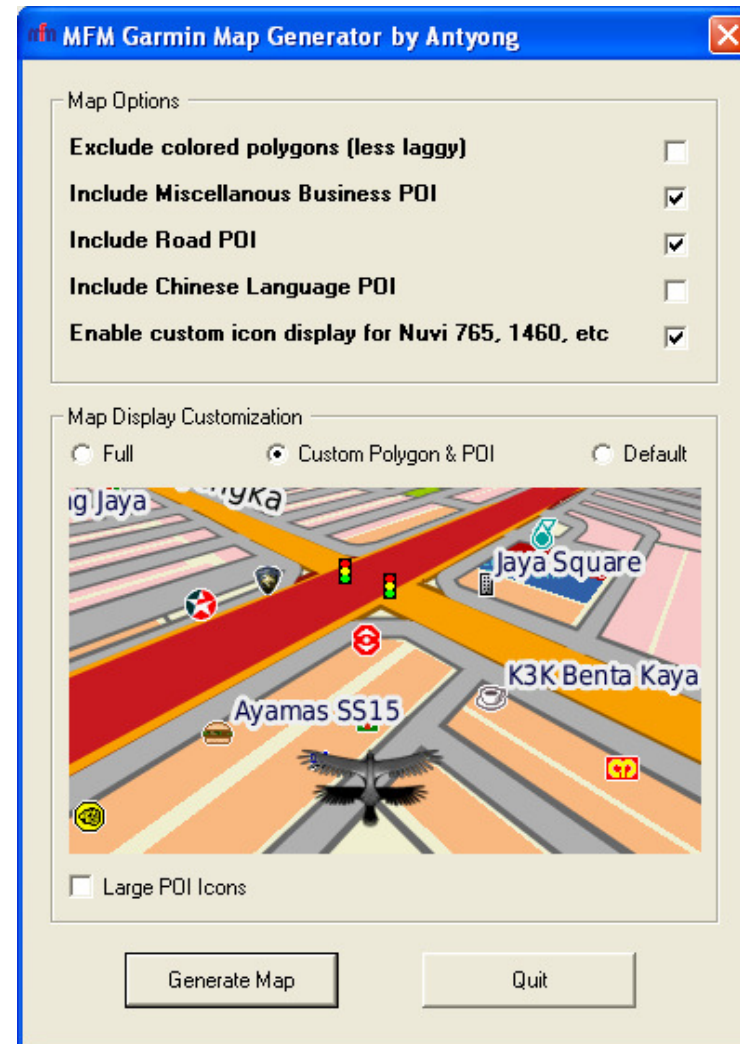

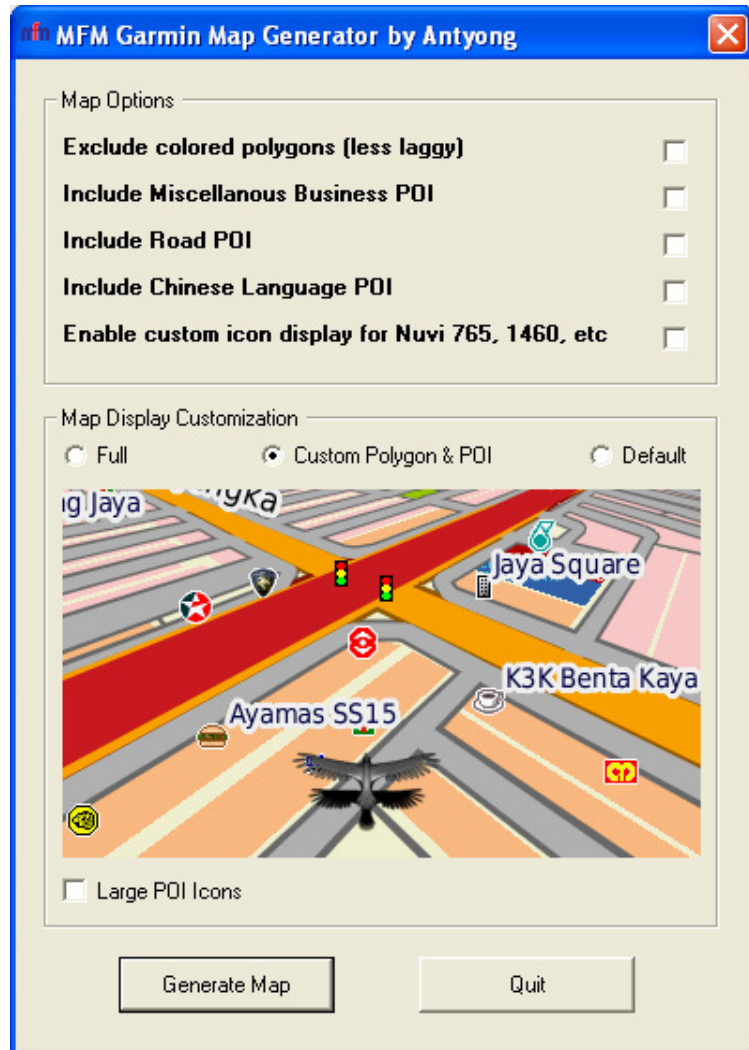

It will bring up the following screen.

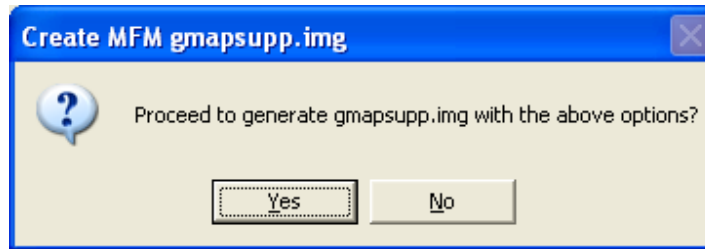

When prompted with the following screen press the Yes button.

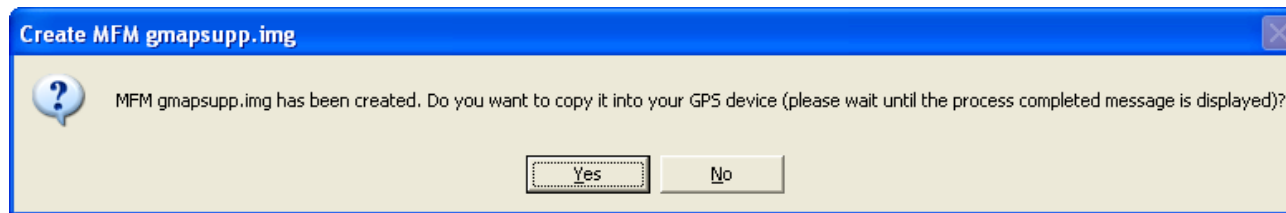

This will bring up the following page. Select the second, third and fifth check boxes and click on the Generate Map button.

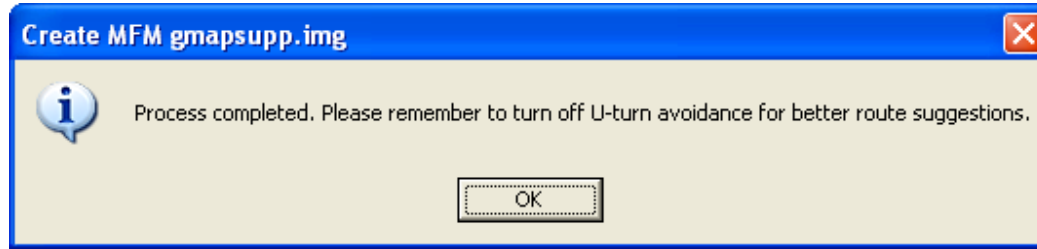

Click the Yes button when prompted whether or not to generate the map file.

Wait for a while and the map file will be created. Connect your device to your computer and click on the Yes button.

Click on Ok to finish the installation.

This brings us to the end of the MalFree Map Update guide.

If you have any questions, please do not hesitate to contact us at 603-9285 8062.
